MEMORANDUM FOR

Canadian Joint Intelligence (JIC) Records

Partly as a consequence of having processed recently three requests under the Access to Information Act relating to these records, we have been considering whether it is appropriate for the PCO to continue to retain these records for which we presume there is little current requirement. At the same time we believe that some of these records have archival value. For example, the holdings include what may be the only complete set of minutes of JIC meetings.

In order to determine the interest of the National Archives (NAC) in receiving these records, or portions thereof, the Records Management Office has prepared the attached detailed inventory of the JIC holdings. Before providing this listing to the NAC, or indeed to other departments that may have an interest in these records, we would ask that IAS determine and advise us of its interest any of the records. If there should be any interest in examining the records themselves, _____ of the Records Office could assist.
